

# **FHCA 2017 Annual Conference & Trade Show**

## **CE Session #28 – Lessons Learned from Florida's 2016 Hurricanes**

Wednesday, August 2 – 6:15 to 7:15 p.m.

Panzacola G-1 – Legal/Regulatory/Survey

### **Upon completion of this presentation, the learner will be able to:**

- List strategies for hurricane preparedness and response, from various perspectives: an administrator, a clinician and a plant operations manager
- Describe preparation strategies from the corporate perspective  
Describe best practices for emergency management communications, before, during and after a hurricane

### **Seminar Description:**

During this panel session, you'll hear from several perspectives about the lessons learned from the 2016 hurricanes, Hermine and Matthew. Panelists will address various perspectives, including corporate, administrator, clinical, and plant operations. Join us for this informative session and learn from those who were front and center during the 2016 storms. You will benefit from hearing their stories of what went well and not so well as they executed their emergency operations plans.
